When we purchased this bulls mom bred from G- we hoped we would get a heifer but this bull has not disappointed us. In fact we thought enough of him to take him to the American Royal where he was reserve in his division. This bull was small at birth being 73 pounds out of a cow with exceptional growth. As an added bonus he is exceptional haired with a commanding presence. He has been DNA tested with the Angus Association and is free of all defects. Retaining 1/4 interest.

ANGUS

FerAppease®
Maternal Bovine Appeasing Substance

**STRESS IS KILLING
YOUR CALVES.
BLOCK THE STRESS.
PROTECT YOUR CALVES.**

**Receive your Cattle
with FerAppease®.**

**Recent Texas A&M study finds that FerAppeased calves
had more than a 70% reduction in overall mortality.**

EXPERIMENTAL DESIGN

120 Intact 4-weight Angus-Influenced steers from MS auction yard
Transported for 12 h to College Station, TX
Rested for 24 h | Initial processing on day 0

Day 0:

- Vaccines, dewormer, implant, metaphylaxis, castration
- Assigned to receive FerAppease or control (n = 60/each)
- Distributed in drylot pens with 12 steers of treatment

Day 14 and on:

- Vaccine + FerAppease booster on day 14
- BW and sampling on days 0, 14, 28, 42, and 60
- Feed intake and incidence of BRD monitored daily

Receiving Cattle with FerAppease®

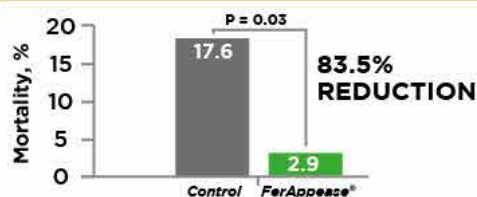

**Dosage Rate: Apply a Total Dose of 10cc. 5cc
on the muzzle + 5cc behind the poll.**

FerAppease® Reduced Blood Cortisol Levels.

Cortisol put calves into fight or flight mode. By
reducing cortisol, FerAppease mitigates the
calf's stress from castration and arrival.

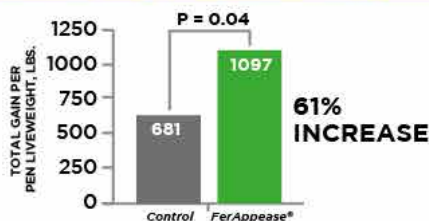

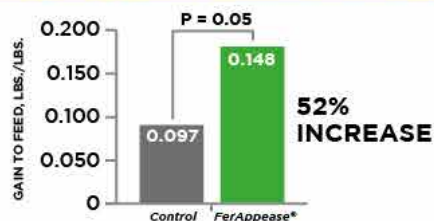

FerAppease® Reduced Mortality to BRD

Cortisol mobilizes energy to fight an immediate threat. This
action deprives the calf's immune system of energy and
weakens its ability to fight off disease, increasing mortalities.

Through the reduction of cortisol, FerAppease® keeps energy in the immune
system. Strong, energy-rich immune systems drive reduced mortalities.

FerAppease® Increased Feed Efficiency & Total Gain, lbs.

MORE CALVES + MORE POUNDS = MORE PROFIT.
Bottom-Line: FerAppease Keeps your Calves Alive.
Healthier Calves means Healthier Pockets.

Here is your opportunity to purchase a full brother to the \$37,000 Vision Dr Phil 2025 purchased by Griswold Cattle and the \$20,000 2023 Classic Champion Angus heifer selected by Tim Fitzgerald. He is practically a carbon copy of those two as this has been one of our most consistent flushes of high quality cattle. They have all had exceptional foot shape, power and skeletal width without sacrificing any look, flexibility or doability which is hard to come by in today's show ring. Count on generations of phenotypic excellence and longevity to help advance your program. Retaining 1/3 Semen Interest.

Jamie 2727 is sired by the very popular show sire 24 Karat. She is out of the donor cow Bear Mtn Jamie 5025 who was the lead off heifer in the 2016 Reserve Champion pen of heifers at the National Western Stock Show. She was shown very successfully and was a class winner at the National Junior Angus Show and Reserve Supreme at the 2016 Nebraska State Fair. A full sister to this female was Champion Bred & Owned female at the Nebraska State show and Reserve breeding heifer at the Tri-State Royal. A maternal sister, Bear Mtn Jamie 9875 was also Reserve Supreme at the Nebraska State Fair like their dam and a daughter of hers sells in the AYC division. Another maternal sister sold as the high selling Fall Pair in the past Bear Mountain Female sale for \$10,000 to Bruhn Cattle Co in Iowa. This bred heifer is offered with Bear Mountain Angus.

AI Date: 5/31/2023 **AI Sire:** Bear Mountain North Star

0.37	0.64	49	102	40	142	5	

If Alex and Austin were still eligible for junior shows, this 'Lady' would not be selling. The attractiveness and style of this GCC Money Earned daughter is next level. Pair that with a massive center body and a set of running gear built for the long haul - you have got a winning combination. Many will recognize the Lady cow family behind this female anchored by Vision Lady 432. Another granddaughter of Lady 432 was the \$18,000 2021 Classic Reserve Champion Angus heifer. Bred to Bear Mtn North Star for a September 2024 calf. Expect this female to land in the donor pen after a competitive show career. Retaining 1 Successful Flush at the buyers convenience.

AI Date: 11/24/2023 **AI Sire:** Bear Mtn North Star

So stylish, attractive and hairy - but we would expect nothing less from a granddaughter of our foundation 'Lady' - Vision Lady 432. Another granddaughter of Lady 432 was the \$18,000 2021 Classic Reserve Champion Angus heifer. This Conley Express daughter brings flexibility, structural integrity, foot shape and size to the forefront. Complimenting that is a genuinely round rib cage with plenty of top shape to spare. Here is a great foundation to build on and a wonderful disposition to work with!
