Bar S Mr Classic N228, an own son of T/R BPF American Classic and from the DSUL Bailey 545 maternal family producing national champions and champions all over the country. Excellent in his structure, bone and foot, moves out with ease, square hipped with depth and muscle volume throughout, soft middled and front-end extension. A horned bull that will work for the purebred breeder or a bull that will make excellent black baldy females. We really like the muscle volume this bull keeps developing while maintaining excellent balance and extension. Stop by the stalls at the Classic and see for yourself, he is the real deal.

This bull has made friends from everybody that has seen him. Practical cattle with an awesome running gear, bold body shape, and plenty of muscle. Throw in the fact that he is out of my favorite cow on our place, and I'd love to have a pen full of his daughters. I think this bull can work in a number of scenarios regardless of your program.

Stop by our booth and ask about our Classic special!

Heifer Bull Deluxe. 3N is an absolute powerhouse for calving ease, ranking in the top 3% for CED and top 10% for BW. It's not every day that you get this top of shape, substance & style in a heifer bull. This guy is an absolute powerhouse. His mother has a beautiful udder & did a phenomenal job with her 1st calf. 3N has great carcass traits & is the complete package. We think enough of this bull we want to retain 1/2 interest. We will work with the buyer on this tremendous herd sire prospect. Visit with us at the Classic or call Brett at 308.214.0334

Here is an opportunity to add a GREEN JCS Makers Mark 229G son to your cattle operation. When you search the AHA database Makers Mark is one of the top Hereford bulls when you figure his EPD minimums for CED, BW, YW, CW, UDDR and TEAT. LRK Briggs 2502 229G is a dark red, goggle eyed, calving ease yearling that is out of a beautifully uddered cow. He has plenty of foot and bone and has the potential to add dimension and production. Be sure to check this guy out on sale day.

A paternal brother to last year's Reserve Supreme Champion bull and out of strongest cow family in our operation. 518 brings all the calving ease, maternal, and fertility traits to the table along with all the build and style points to add value to any operation all while being Homozygous Polled! We believe in sound functional cattle with a front pasture eye appeal and this young sire checks all the boxes. Updated pictures and DNA profiles will be available before sale time on our socials!

This is the result of our most dynamic mating ever! Check out the picture of his full sister and you'll see what I mean. These cattle are stout, awesome bodied, good looking, and have the right basic build. This is a calf we've been high on since last summer. He's ideal in terms of structure, awesome looking, and has enough punch to pass on. These Gabby 602 cattle work and there will be very few, if any, offered after this sale.

This heifer is a great young calf that is going to be a great cow. Her sire is making a name for himself in the Hereford breed with his exceptional looks and marbling. Her mother is a great young cow that has raised great calves of both sexes. 251N's maternal grandmother is a DOD cow that raised an excellent heifer calf that sold to a purebred herd in November.

Another exciting Marksman daughter here that comes with a stacked pedigree, incredible look, and awesome running gear! We love this heifer for the presence she carries through her front end, her lines, basic build, and body shape. She's a little later maturing (which is not a bad thing) and only continues to turn it on. Grimmel Girls Show Cattle had a 3/4 sister to this heifer on their sale last fall command north of \$10K. She's awfully neat now but wait until you see her next summer! Retaining the right to 2 IVF aspirations.

The final natural calf of a female who has made such an impact on our program. A direct maternal sister to Stinger and the 229 bull walking the pastures here. The maternal potential alone makes this female one valuable asset to get hold of. The sire side is equally impactful, a Brawn son you will begin to notice making his place known in upcoming pedigrees. A rare opportunity, buy with confidence, build your program.

We have always loved the Marksman cattle, and we felt this mating with JDH MS 20R VICTOR 33Z 55D ET would be the perfect complement of power, with added presence. "Vicki" as Jacey called her was a many time winner in Canada for her, and has had great success in generating over \$60,000 in offspring over the years. Marksmans also no stranger to having great success in and out of the showring. Powerful pedigree on top and bottom, buy with confidence, I promise you will not be disappointed! Selling 3 IVF no reverse sort. Guarantee 1 pregnancy if work is completed by certified embryologist. Work must be completed within a year of sale date. Embryos stored at Trans Ova, OK.

Sired by KJ TWJ 907E Liberty 159H ET

We have always loved the Marksman cattle and we felt this mating with H Chardonnay 9104 ET would be a perfect fit. "Chardonnay" was a many time winner in Canada and class winner at junior nationals for Jacey, and has also raised multiple winners throughout the years. Marksmans also no stranger to having great success in and out of the showring. Powerful pedigree on top and bottom, buy with confidence, I promise you will not be disappointed! We are selling 3 IVF with no sort. Guaranteeing 1 pregnancy if work is completed by certified embryologist. Implants must be made within a year of sale date. Embryos are stored at Trans Ova Oklahoma.
