A long spined, powerfully made BWF son out of Bold Move. Similar genetics to the bull we exhibited at NCC last year. He has got a big top, a lot of power and great growth. Bold Move really adds the pounds to them in my herd as they are consistently the heaviest calves every fall. This bull is no different. Cow families and longevity are highly important to me. His mother E713 still in production and has not missed a first round AI breeding ever in her life. N509 has a gorgeous full sister in the bred heifer pen that we kept back for ourselves, but N509 has a lot of the great pieces for you. Fertility, power, great cow family, and longevity bred into this one.

0.019	7.7	14.6	48.2	13.7	9.7	0.71	139.3	77.6	

Calving ease king! A moderate framed Private Stock son out of a first calf heifer that had an actual birth weight of 63 pounds and CE and BW EPDs ranking in the top 15% of the breed. Private Stock needs no introduction as his progeny have excelled the past few years and he's one of the number one heifer bulls in the country currently. This easy fleshing, powerfully topped, structurally sound bull derives from a cow family in my herd with a grandmother still in product at 10 years of age (C533) and a great-grandmother still in production at 20 years of age (R599). Longevity and calving ease is built in with model and he'd love to meet your heifers or cows next summer!

0.067	3.7	16.4	51.8	8.2	7.6	0.99	106.1	72.7	

This blaze-faced bull is the kind that stops you in your tracks. He combines an awesome look with a long, extended neck, a bold and powerful middle, and the ability to get out and move with ease. He comes backed by a tremendous cow family, one we were proud to acquire from our good friend T-T during his dispersal sale. With this kind of maternal strength behind him, we expect this bull to excel at producing top-end replacement heifers and stout, high-quality sons. If you're looking for a sire to add look, structure, and real-world functionality to your program, this one checks every box.

Aptly named, BAM BAM, is an overpowering bull in every sense of the word. He will undoubtedly give you more size, stoutness, stretch, stature, and symmetry, while adding those highly sought after BWF offspring, while transmitting maternal merit to his female replacement females. Bulls like this is what you have come to expect from Sisco Brothers over the years at The Classic...expect no different here.

This solid black bull is flat-out built to dominate. If someone wants a show bull, he's got the look, the power, and the presence to walk in and compete from day one. He carries a high, commanding neck set, massive foot and bone, and he moves with the kind of cat-like agility you only find in the elite ones. He's a full sib to the standout Lot 4 heifer in our fall sale proven genetics that speak for themselves. Bulls with this kind of build and fire don't come around often. His ceiling is sky-high, and he's hands down the best bull we've ever raised. Don't even think about missing this one.

She'll sell as a pair, and she's the kind you'll brag about owning - straight out of the Felt Farms replacement pen and built with that front-pasture presence. Long, feminine, and bold in her rib, she's got the look and the substance and power to make a serious cow. Due soon, and by sale day she'll be ready to breed back in whatever direction you want to take her. She's set to kick off her production career with a bang. Don't sleep on a female built this right. Big quality, big potential - Owned with Felt Farms, James Felt. Sells with a bull calf at side!
